

Homemade Bubbles!

Ask a parent to help you make a batch of this easy and fun bubble solution!

- 1/4 cup liquid dishwashing detergent
- 3/4 cup cold water
- 5 drops of glycerin (available at most pharmacies)
- A few drops of food coloring (if you want colorful bubbles.)

Measure out the water, detergent, and glycerin into container with a cover and stir gently.

The longer you let the mixture set, the larger the bubbles are and the longer they'll last!
